

ABOUT KVASER

## BUSINESS MODEL

Global Network Technical Associates

- develop software tools
- support Kvaser CAN interfaces

# NETWORK EUROPE

# VERTICAL MARKETS

# BUSINESS MODEL

Kvaser CAN and LIN  
- Interfaces  
- Data Loggers

# WHY KVASER

## Free Kvaser Software Tools

- Drivers
- Kvaser CANlib SDK (API)
- Common for all interfaces

## WHY KVASER

Technical Support

- Free

- 24 hr/day, business days

# PRODUCT OVERVIEW

# PRODUCT OVERVIEW

LEAF

USBCAN

MEMORATOR

BLACKBIRD

PCI FAMILIES

# Leaf Light v2

EAN: 73-30130-00685-0

## FEATURES

- Single Channel
- Send & Receive
- CAN 2.0A and 2.0B
- All Higher Layer Protocols (J1939, CANopen, etc)
- USB 2.0
- Galvanic Isolation

## INSIGHTS

- Best selling interface:  
Leaf Light v2
- Used across all markets
- From development to service tool

## Leaf Light v2

EAN: 73-30130-00685-0

OBDII

J1939

Rugged

Professional

+10 MORE

# USBcan Professional

EAN: 73-30130-00357-6

## FEATURES

- Dual Channel
- Send & Receive
- CAN 2.0A and 2.0B
- All Higher Layer Protocols (J1939, CANopen, etc)
- USB 2.0
- Galvanic Isolation

## INSIGHTS

- Used across all markets
- From development to service tool

# USBcan Professional

EAN: 73-30130-00357-6

RJ45

Rugged

# Memorator Professional

EAN: 73-30130-00351-4

## FEATURES

- Two Channel USB-CAN
- Interface Mode
- Standalone Datalogger Mode
- SD card memory
- Configurable logging

## INSIGHTS

- Best selling interface: Memorator Professional
- High use in Transportation markets: Automotive, Rail, Mining, Truck, Aerospace

# Memorator Professional

EAN: 73-30130-00351-4

Light

Rugged

Eagle

# PC104+ HS/HS (IDC)

EAN: 73-30130-00336-1

## FEATURES

- 2 Channels
- Send & Receive
- CAN 2.0A and 2.0B
- All Higher Layer Protocols (J1939, CANopen, etc)
- Galvanic Isolation
- Onboard 16-bit microcontroller

## INSIGHTS

- Embedded Systems
- Systems Integrators

# PC104+ HS/HS (DB9)

EAN: 73-30130-00352-1

## FEATURES

- 2 Channels
- Send & Receive
- CAN 2.0A and 2.0B
- All Higher Layer Protocols (J1939, CANopen, etc)
- Galvanic Isolation
- Onboard 16-bit microcontroller

## INSIGHTS

- Embedded Systems
- Systems Integrators

# PCIe can HS/HS

EAN: 73-30130-00405-4

## FEATURES

- 1 – 4 Channels
- Send & Receive
- CAN 2.0A and 2.0B
- All Higher Layer Protocols (J1939, CANopen, etc)
- Galvanic Isolation

## INSIGHTS

- Embedded Systems
- Systems Integrators

## **CUSTOMIZED PRODUCTS ARE AVAILABLE**

- ✓ Relabeled Off-the-Shelf (OTS)
- ✓ Modified Products

## **MINIMUM REQUIREMENTS**

- ✓ 200 pcs per year
- ✓ MNDA & Contract with QSR

APPLICATIONS

# APPLICATIONS - CASE STUDIES

## Mining

**Kvaser Datalogger are used to log hydraulic oil transmission temperatures or monitor brake system pressures**

# APPLICATIONS - CASE STUDIES

## Elevators and Escalators

### Kvaser products

- embedded part of the elevator
- after sales diagnostic tool

# APPLICATIONS - CASE STUDIES

## Industrial Automation - Conveyor systems

- **Distribution**
- **Kvaser CAN interfaces are used in control systems for data acquisition**

# APPLICATIONS - CASE STUDIES

## Industrial Automation at University

- Cern

**Proton Collider – Recreate the condition of post Big Bang event**

**Kvaser CAN interfaces play an important role within the world's most powerful particle accelerators for data acquisition.**

## APPLICATIONS - CASE STUDIES

### Aerospace

- NASA

**Kvaser CAN Interfaces were picked by NASA for extreme performance and radiation test.**

**"I thought you might want to know that the Leaf Semi-Pro I bought performed much better than I expected under testing. We bombarded the unit with the equivalent of 10 years worth of ionizing radiation and it only had two "functional interrupts" where it lost communication. In both cases, power cycling the unit by disconnecting it and reconnecting it returned it to normal function."**
